

Python Care – the cost effective power cleanser

for all beverage lines

Developed by experienced hygiene researchers.

Advantages:

- Good value because a little goes a long way: you need only **5 litres** of concentrate for more than **1.600 cleaning processes** with 1% dilution, 8 m line length, 7 mm diameter. Each cleansing process costs only **2 ct.**
- Highly effective for removing microbiological biofilm and beerstone
- Extremely powerful even for stubborn residue in beverage lines
- Individual dosing, depending on level of dirt
- Suitable for all alkali-proof beverage lines to draw beer, wine and soft drinks
- Chlorine-free, protects the beverage lines and lengthens their lifespan
- Without colour indicator to avoid colour residues in lines and drinks
- Easy to wash out

You can measure Python Care exactly with our convenient dosing bottle.
